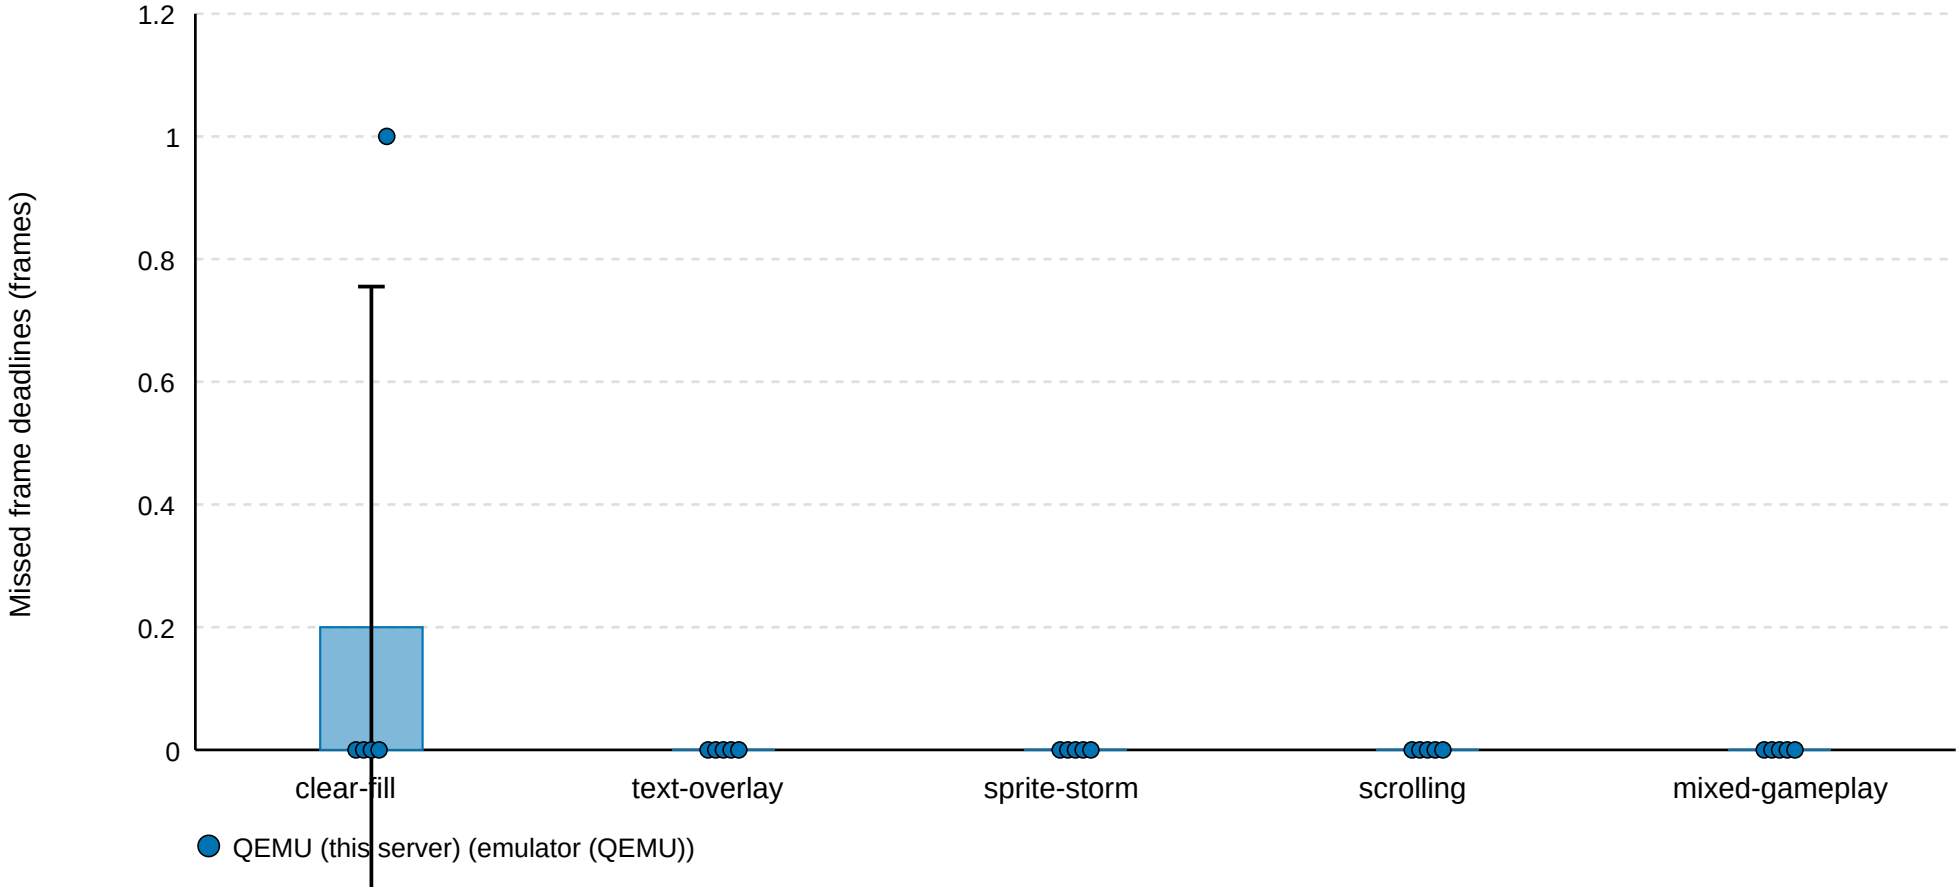
PRG32 evaluation: Missed frame deadlines

Missed frame deadlines (frames); bar: mean, line: 95% CI, dots: each measured run



Protocol prg32-evaluation-protocol-1; cartridge SHA-256 3b1171638043276a.
Measured runs per target: QEMU (this server): n=5; warm-up runs excluded.
Error bars: two-sided 95% Student t interval of the mean of the runs. Every measured run is a point.
Emulator times (PRG32-QT, QEMU) depend on the host computer: they are not PRG32 console times.
